

Yurii Kosyi — DevOps Engineer

Hello, I'm Yurii Kosyi with over 8 years of experience in IT, focusing on **system administration** and **DevOps**. I specialize in creating scalable, secure, and efficient infrastructures, effectively organizing developer workflows, and maintaining secure, reliable environments to support business goals. My primary focus is **Google Cloud (GCP)**: Kubernetes on **GKE**, **Cloud SQL**, **Cloud Run**, and **BigQuery** — with tight **IAM** integration and **Google Workspace** as the central corporate identity and access layer.

Core Competencies

DevOps Tools:

- **Kubernetes:** Deploying and managing scalable clusters.
- **Terraform:** Automating infrastructure as code.
- **Docker:** Expertise in containerization and application lifecycle management.
- **GitOps:** Managing deployments with **FluxCD** and **ArgoCD** from GitLab or GitHub repo.
- **CI/CD:** Configuring pipelines via **GitLab CI/CD** and **GitHub Actions** to automate application deployments.

Cloud Platforms:

- **GCP:** GKE, Cloud Run, Cloud SQL, Cloud Storage, BigQuery, IAM (Workload Identity, Service Accounts).
- **AWS:** EC2, S3, Lambda, EKS, RDS.
- **Hetzner:** Robot, Cloud, Storage. Cost-efficient, high-performance workloads.

Linux Administration:

- **Linux Expertise:** Daily usage and administration of Linux-based systems (Ubuntu, Red Hat).
- **Scripting:** Automating processes with **Bash**, **Python**, and **Golang**.

Monitoring & Logging:

- **Grafana + Prometheus:** Real-time monitoring and analysis.
- **ELK Stack:** Centralized logging and troubleshooting system health.

Identity & Access Management:

- **Google Cloud IAM:** Organizations/Folders/Projects, roles and policies, service accounts, Workload Identity (GKE/CI).
 - **Google Workspace Admin:** SSO/SAML, groups-based access, OU structure, automated onboarding/offboarding; groups-driven RBAC across GCP and SaaS.
-

Professional Experience

DreemiX (2024 - Present) — DevOps Engineer (Part-Time)

- Managed **Kubernetes clusters on GKE**, automated deployments, and improved performance and reliability metrics.
- Designed and implemented CI/CD pipelines with GitHub Actions and Jenkins.
- Deployed and monitored containerized workloads on **GKE** and **Cloud Run**; managed **Cloud SQL** instances and IAM policies.
- Integrated **Google Workspace** with **Cloud IAM** for centralized, least-privilege access to GCP resources (groups-based RBAC, SSO).
- Built data ingestion paths and scheduled jobs for analytics in **BigQuery** (via Cloud Storage and ETL tooling).

SEOSmart (2016 - 2024) — Web Developer and DevOps Engineer

- Administered Linux servers and automated workflows for legacy systems.
- Managed cloud infrastructure and ensured high availability.
- Streamlined deployments using Helm and container technologies; introduced groups-based access via **Google Workspace** and **IAM** where applicable.

Previous Roles:

- **UA-WEB (2013-2014)** — SEO Specialist, Team Lead, Web Developer (PHP).
- **Aweb (2013)** — SEO Specialist.
- **NOVUS / Leda Company (2011-2013)** — SAP Basis Administrator / System Administrator (Linux).
- **Chornomorska Perlyna JSC (2008-2010)** — System Administrator.
- **Odeskyi Korovai JSC (2006-2008)** — System Administrator.

Education

- **Bachelor's Degree in Electrical Engineering**
Odesa National Polytechnic University (2006) - specialization in Power Supply for Industrial and Municipal Facilities

Additional Education

- **SoftServe Academy Course: Practical DevOps (2024)**
- **DevOps та Kubernetes. Практичний інтенсив+ by Prometheus (2024)**
- **FastLane (2011) - Course on IBM AIX (Linux) Administration and Oracle DB**

Soft Skills

- Clear Communication and Team Collaboration.
- Problem-Solving and Quick Troubleshooting.
- Strong Organizational Skills for Infrastructure Projects.

Hobbies

In my free time, I enjoy traveling, exploring aviation, and testing new DevOps and AI tools. I'm always excited to learn and experiment with the latest technologies.

Feel free to reach out!

I'm open to collaboration and discussions. Let's connect on [LinkedIn](#) or explore my work on [GitHub](#).
