Yurii Kosyi — DevOps & MLOps Engineer

Hello, I'm Yurii Kosyi with over 8 years of experience in IT, focusing on **system administration** and **DevOps**. I specialize in creating scalable, secure, and efficient infrastructures, effectively organizing developer workflows, and maintaining secure, reliable environments to support business goals. My primary focus is **Google Cloud (GCP)**: Kubernetes on **GKE**, **Cloud SQL**, **Cloud Run**, and **BigQuery** — with tight **IAM** integration and **Google Workspace** as the central corporate identity and access layer.

Contact Information

- **Email:** y.kosiy@gmail.com
 - **LinkedIn:** Yurii Kosiy
 - **Telegram:** [@dreemix_com](https://t.me/dreemix_com)
 - **Phone:** +38/096/5563936
-

Core Competencies

DevOps Tools & Automation:

- **Kubernetes:** Deploying and managing scalable clusters, with deep expertise in **GKE**.
- **Terraform & Ansible:** Automating infrastructure as code and configuration management.
- **Docker & Artifact Registry:** Expertise in containerization, image management, and application lifecycle.
- **GitOps & CI/CD:** Managing deployments with **ArgoCD**, **FluxCD**, **Cloud Build**, **GitLab CI/CD**, and **GitHub Actions**.

Cloud Platforms & Bare Metal:

- **GCP:** GKE, Cloud Run, Postgres Cloud SQL, Cloud Build, Artifact Registry, Cloud Storage, BigQuery, IAM (Workload Identity, Service Accounts).
- **AWS:** EC2, S3, Lambda, EKS, RDS.
- **Bare Metal & Providers:** Extensive experience managing large fleets of bare metal servers on **OVH** and **Hetzner**.

OS & System Administration:

- **FreeBSD & Linux Expertise:** Daily usage, management, and administration of a vast number of **FreeBSD** and **Ubuntu** bare metal servers.
- **Scripting:** Automating processes with **Bash**, **Python**, and **Golang**.

Monitoring & Logging:

- **GCP Native & Open Source:** Extensive experience with monitoring on GCP using **Prometheus**, **Cloud Logging**, and **Grafana** for real-time analysis and system health.
- **ELK Stack:** Centralized logging and troubleshooting system health.

MLOps & AI Infrastructure:

- **LLM Deployment:** Deploying and managing Large Language Models on **vLLM**.
- **AI Infrastructure:** Building robust infrastructure for multilingual communication, image recognition, and specialized models for content safety and moderation.

Identity & Access Management:

- **Google Cloud IAM:** Organizations/Folders/Projects, roles and policies, service accounts, Workload Identity (GKE/CI).
 - **Google Workspace Admin:** SSO/SAML, groups-based access, OU structure, automated onboarding/offboarding; groups-driven RBAC across GCP and SaaS.
-

Professional Experience

DreemiX (2024 - Present) — DevOps & MLOps Engineer

- Managed large fleets of baremetal servers (**FreeBSD** and **Ubuntu**) across **OVH** and **Hetzner**, utilizing **Ansible** for configuration management.
- Managed **Kubernetes clusters on GKE**, automated deployments via **ArgoCD** and **Cloud Build**, and improved performance and reliability metrics.
- Built AI infrastructure: deployed LLMs on **vLLM** for multilingual communication and image recognition, focusing on content safety and moderation models.
- Deployed and monitored containerized workloads on **GKE** and **Cloud Run**; managed **Postgres Cloud SQL** instances and IAM policies.
- Implemented robust monitoring on GCP using **Prometheus** and **Cloud Logging**.

- Integrated **Google Workspace** with **Cloud IAM** for centralized, least-privilege access to GCP resources (groups-based RBAC, SSO).
- Built data ingestion paths and scheduled jobs for analytics in **BigQuery** (via Cloud Storage and ETL tooling).

SEOSmart (2016 - 2024) — Web Developer and DevOps Engineer

- Administered Linux servers and automated workflows for legacy systems.
- Managed cloud infrastructure and ensured high availability.
- Streamlined deployments using Helm and container technologies; introduced groups-based access via **Google Workspace** and **IAM** where applicable.

Previous Roles:

- **UA-WEB (2013-2014)** — SEO Specialist, Team Lead, Web Developer (PHP).
 - **Aweb (2013)** — SEO Specialist.
 - **NOVUS / Leda Company (2011-2013)** — SAP Basis Administrator / System Administrator (Linux).
 - **Chornomorska Perlyna JSC (2008-2010)** — System Administrator.
 - **Odeskyi Korovai JSC (2006-2008)** — System Administrator.
-

Education

- **Bachelor's Degree in Electrical Engineering**
Odesa National Polytechnic University (2006) - specialization in Power Supply for Industrial and Municipal Facilities
-

Additional Education

- **SoftServe Academy Course: Practical DevOps (2024)**
 - **DevOps та Kubernetes. Практичний інтенсив+ by Prometheus (2024)**
 - **FastLane (2011) - Course on IBM AIX (Linux) Administration and Oracle DB**
-

Soft Skills

- Clear Communication and Team Collaboration.

- Problem-Solving and Quick Troubleshooting.
 - Strong Organizational Skills for Infrastructure Projects.
-

Hobbies

- **AI/ML:** Interested in new tools and approaches (LLMs, MLOps), integrating them into workflows.
 - **General aviation:** Not a pilot yet, but working towards it (on hold due to the war).
 - **Beekeeping:** I run a small apiary. Great way to clear my head and a chance to work with my hands outdoors.
 - **Hiking & Cycling:** Enjoy active outdoor recreation.
-

Feel free to reach out!

I'm open to collaboration and discussions. Let's connect on LinkedIn or explore my work on GitHub.
